

**AFFORDABLE HOUSING PROGRAM GENERAL FUND APPLICATION
GREEN BUILDING INNOVATION CERTIFICATION FORM**

PROJECT NAME: _____

SPONSOR: _____

ARCHITECT: _____

ENERGY CONSULTANT: _____

PROJECT FHLB NY MEMBER: _____

The Affordable Housing Program (“AHP”) General Fund Application Green Building Innovation Certification form (“form”) must be completed by AHP project sponsors seeking points in the Green Building Innovation scoring category as defined in the AHP Implementation Plan for the year in which the project is applying. This certification must be executed by authorized representatives of the AHP project sponsor (“sponsor”), the project architect (“architect”), and the project energy consultant (“energy consultant”).

This form certifies that the project architect will work in conjunction with the energy consultant during all stages of the development process in furtherance of achieving the Green Building Innovation design standards as proposed by the project’s AHP General Fund application. FHLB NY must be notified of any change to the information on this certification and in its sole discretion may request the sponsor, architect, and/or energy consultant to submit an updated certification form with supporting evidence.

The project will be designed to meet one of the following Green Building Innovation Standards (select only one):

Passive House Design

Zero Energy Ready Home

Rehabilitation Projects (reduce projected energy usage by at least 30%)

ENERGY STAR Caribbean Program
